Terms of sale

Responsability. — Purchasers are in full right to examine the ordered goods or to have them examined by any one appointed by them before they leave our nursery.

As every care and attention is taken by packing and despatching the plants, risk of every description, accidents, or delays of carriers are to be born by the purchasers as plants leave our nursery.

Should damage occur claim should be entered by the carrier or the insurance Co as the case might be and this should be done in the way as the laws prescribe of the country the plants are ordered to.

We shall provide for-insurance when requested.

Orders. — Orders from unknown correspondents or from all those who are not in constant relations with our House, are kindly requested to send cash remittance with their orders or to provide satisfactory trade and bank references.

No orders are executed unless the preceeding has been duly settled.

Complaints. — Complaints can only be entertained when made immediately after receipt of goods. Should one or other size or variety demanded for in the order be exhausted or be lacking, we shall supply it by some other variety which comes nearest to it in colour and habit, unless orders to the contrary are given.

If by purchaser no orders to shipment have been given, we shall do our very best to ship the goods in the most practical way, but we have no responsibility, as plants are travelling on purchasers' risk.

Payment. — All our invoices are payable three months from Date to the order of our American Representant VAN ZONNEVELD BROS. & PHILIPPO. The prices are net in American gold dollars, equal to francs 5,15 Belgium Currency.

Discount. — A discount of 4 % is allowed for cash with order; 3 % is allowed on remittance made within 6 weeks from date of invoice; 1/2 % interest per month will be charged for bills overdue.

Packing is charged at cost price.

Phœnix House.

PALMS

We consider Palms one of our specialties and have a very large stock.

Please, note that the measurement of plants, means the height of the plant from the top of the pot to the top of the plant in its natural position.
